

WIDESPREAD ELECTION FRAUD PUSH BACK!

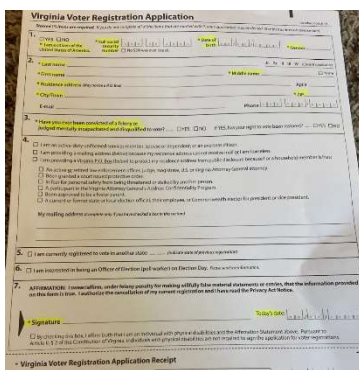

Fairfax County, VA (Epicenter of the Deep State) “Widespread Push Back!” This is exactly what our country needs right now. Early voting starts in some states very soon, other states have already begun, and remainder in just a few weeks. With social media, GetOutTheVote efforts and political rallies, the American people have the means to push back, but do we have the will? So many are cavalier about what’s happening in our country, politically. Yet, when things get worse, and they certainly can, all Americans will feel the pain of wrong policies and executive actions equally, and not just those who voted.

If you are witness to something, anything, that might suggest inappropriate behavior or procedure regarding the upcoming federal election – including non-citizens attempting to vote – you need to know this: It is a Federal crime for any non-citizen to vote in a Federal election. Plus, anyone who knowingly permits or promotes such a crime can be held complicit with the crime, and could face criminal charges as well.

You should also know that there are rewards posted for tips that lead to the arrest and conviction of those attempting to “rig” the election. OperationEyeBall.com, supported by the well-respected Virginia Project PAC, is one of them.

Several other organizations who would love to receive your tips – on any potential crime -- include CrimeStoppers (1-800-222-TIPS), 1-888-LOCK-U-UP, and more. “Tell ‘em what you know, and cash-in on the dough!” (Bad actors are openly invited to snitch on their co-conspirators!)

While not offering a cash reward, per se, you should always reach out to your local law enforcement to report any crime, simply by dialing 9-1-1. ProtectTheVote.com is also standing by to receive your election/voter interference tips, with a reported 5,000 volunteer attorneys standing by. It’s time for law abiding US citizens to PUSH BACK!

VA Voter Registration form given to a 16-year old in Loudoun County.

It has been reported by a concerned parent in Loudoun County VA that a public high school teacher passed out voter registrations to her 16-year old students, asking them to fill-in their personal information and return them to her before leaving school that day. One student took a picture of the form for her mother to see. She’s not even of voting age!

Non-citizens applying for a Virginia driver’s license eagerly check the “Do you want to register to vote?” question box on their application. Guess what happens next. Perhaps this is why the Governor of Virginia announced

purging 6,000 non-citizen names from voter rolls earlier this year. It's anyone's guess how many they didn't catch, or have applied since. Not to mention the other 49 states!

There are so many different ways unscrupulous individuals have devised to alter elections. Why do they do this? Some do it to remain in power. They can't stand the idea of being voted out of office. Others do it in support of their favorite candidate or party. While many are reportedly doing it for cash money from wealthy donors. How do they sleep at night, knowing that eternal damnation awaits them?

OperationEyeball.com, besides offering a cash reward to tipsters, also boasts of many helpful tools to assist EI groups. These include:

- WANTED POSTER Downloadable and printable, idea for bulletin boards, outside designated voting poll areas.
- HONOR THY VOTE (H-T-V) RADIO Downloadable audio for airplay over smartphones and Bluetooth speakers outside designated voting poll areas.
- NATIONAL LIST OF ELECTION INTEGRITY GROUPS Find an EI group near you. Volunteer, donate and support in every way you can! This is a dynamic list. If your group's name is not on it, let us know ASAP!
- NATIONAL LIST OF KNOWN CRIMINALS Caught in the act of election meddling in some form. Just in case you believe people are not being held accountable, check their list. (Make sure your name's not on it...and stays that way!)
- HONOR THY VOTE.COM (HTV) Weekly podcast series that features interviews, whistle-blowers, VotersVoice, and new additions to the Election Blotter.
